Guest Speaker

Mikhael Wilson with City of Dallas

Mikhael's role with the city is mosquito abatement along with restaurant inspections. This meeting focused on mosquito abatement.

Mosquito facts:

- They live in a 1/2 mile radius
- 3 week life cycle
- Only the females bite.
- Deadliest animal on the planet.
- Dallas focuses on preventing West Nile virus.
- you can report to 311 for mosquito investigation.
- If you see standing water dump it. If you can't dump it. Call the city. (311)
- Mosquitos can breed in standing water as small as a bottle cap.

- Mosquito dunks are a bacterial preventatives safe for everything except mosquitos. You can pick them up at the Slavings' house.
- The city sprays for mosquitos but we are on the outer edge of where the spray reaches. However, our area should receive blow over.
